DIGITAL PRINTER Sz12

PACKAGING SOLUTIONS

11.8 in Print width	1 Printhead
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 12 is a compact single-pass digital printer developed for short and medium runs that require speed, precision and stability. Equipped with one A3 Pagewide printhead and a print width of up to 11.8 in, it runs a CMYK color configuration with dye or pigment ink for sharp, consistent prints on different porous surfaces. Its feed system reaches speeds of up to 98 ft/min, keeping production continuous and efficient for commercial and industrial applications. With a feed width of up to 26.8 in and the capacity to process materials from 0.04 to 5.9 in tall, the Sz 12 prints directly on kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and other porous materials. Its compact design fits easily into different production environments, while single-pass technology prints as the material moves, saving time and streamlining processes. It is a solution for businesses that want to add customization, packaging printing and digital graphic production with flexibility, productivity and professional quality.
