DIGITAL PRINTER Sz24 MINI

PACKAGING SOLUTIONS

23.6 in Print width	2 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 24 MINI is a digital printer designed for mid-level to industrial production environments, offering a balanced combination of speed, precision and versatility for direct printing. Equipped with 2 A3 Pagewide printheads, it provides a print width of up to 23.6 in and runs a CMYK ink configuration compatible with dye or pigment ink. Its feed system reaches speeds of up to 98 ft/min, keeping the workflow continuous and efficient, especially when processing different formats with stability and consistency. With a feed width of up to 63 in and the capacity to handle materials from 0.04 to 3.1 in tall, the Sz 24 MINI expands customization and graphic production on a range of porous substrates. It is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and similar materials, supporting packaging, product customization and on-demand production. Its dual printheads, wide format and high-speed feeding make it a flexible solution for businesses looking to optimize processes and increase production capacity with professional-quality results.
