DIGITAL PRINTER Sz24

PACKAGING SOLUTIONS

23.6 in Print width	2 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 24 is a high-performance digital printer developed for printing processes that require greater production capacity, precision and stability in continuous work. Equipped with 2 high-precision A3 Pagewide printheads, it offers a maximum resolution of 1200 × 1200 dpi and a print width of up to 23.6 in, reproducing graphics, text and visual elements with excellent definition. Its CMYK configuration, compatible with dye or pigment ink, provides versatility for different production needs, while its feed speed of up to 98 ft/min keeps the workflow fast and efficient. Designed to expand direct digital printing on packaging and porous materials, the Sz 24 accepts products from 0.04 to 17.7 in tall and has a feed system up to 63 in wide, making it easy to process formats and pieces of different sizes. It is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and other porous materials, making it a versatile solution for customization, packaging and industrial graphic production. Its wide format, dual printheads, high resolution and feed capacity meet demanding production that calls for productivity, flexibility and professional quality.

TECHNICAL SPECIFICATIONS

Model	Sz 24 Digital printer
Production level	High
Technology / printhead	A3 Pagewide Printhead High-precision printheads
Number of printheads	2 printheads
Max. resolution	1200 × 1200 DPI
Print width	23.6 in
Ink colors	CMYK dye ink / pigment ink.
Power	5 kW total consumption.
Feed height	0.04–17.7 in
Feed speed	98 ft/min
Feed width	63 in feeder
Print media	Kraft paper bags; corrugated board / cardboard boxes; wood boards; paper and other porous materials.
Warranty	1 year.
