DIGITAL PRINTER Sz36

PACKAGING SOLUTIONS

35.4 in Print width	3 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 36 is a digital printer developed for continuous production and medium to long runs, combining speed, capacity and precision for professional printing environments. Equipped with 3 A3 Pagewide printheads, it offers a wide print width of up to 35.4 in for larger-format graphics and higher productivity in every cycle. Its CMYK ink configuration, compatible with dye or pigment ink, provides versatility for different applications, while its feed speed of up to 98 ft/min keeps production steady, stable and efficient. With a feed system up to 63 in wide and the capacity to process materials from 0.04 to 3.1 in tall, the Sz 36 handles a wide variety of substrates and formats. It is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and other porous materials, making it a versatile solution for packaging printing, customization and digital graphic production. Three printheads, a 35.4 in print width and high-speed feeding let it respond efficiently to larger jobs that demand productivity, flexibility and professional-quality results.

TECHNICAL SPECIFICATIONS

Model	Sz 36 Digital printer.
