DIGITAL PRINTER Sz48

PACKAGING SOLUTIONS

47.2 in Print width	4 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 48 is a wide-format digital printer developed to integrate into packaging lines and industrial production processes, offering greater print coverage, speed and capacity for high-demand work. Equipped with 4 A3 Pagewide printheads, it provides a print width of up to 47.2 in for wide-format graphics and efficient processing of pieces of different sizes. Its CMYK configuration, compatible with dye or pigment ink, delivers consistent color reproduction, while its feed speed of up to 98 ft/min supports a continuous workflow and higher productivity. Its system accepts materials from 0.04 to 3.1 in tall and has a feed width of up to 63 in, providing flexibility for different substrate sizes and types. The Sz 48 is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and other porous materials, expanding its reach in packaging printing, customization and industrial graphic production. Four printheads, a 47.2 in print width and high-speed feeding make it a solution for businesses that need to increase production capacity, optimize processes and maintain professional-quality results at larger scale.

TECHNICAL SPECIFICATIONS

Model	Sz 48 Digital printer.
Production level	Medium Built for packaging lines and industrial production.
Technology / printhead	A3 Pagewide Printhead
Number of printheads	4 printheads
Print width	47.2 in
Ink colors	CMYK dye ink / pigment ink.
Power	10 kW
Feed height	0.04–3.1 in
Feed speed	98 ft/min
Feed width	63 in
Print media	Kraft paper bags; corrugated board / cardboard boxes; wood boards; paper and other porous materials.
Warranty	1 year.
