DIGITAL PRINTER Sz60

PACKAGING SOLUTIONS

59.1 in Print width	5 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 60 is a wide-format digital printer developed for industrial production and work that requires broad print coverage, combining capacity, speed and stability in continuous processes. Equipped with 5 simultaneously operating A3 Pagewide printheads, it provides a print width of up to 59.1 in to handle large pieces and maximize productivity on high-demand lines. Its CMYK ink configuration, compatible with dye or pigment ink, offers versatility for different graphic applications, while its feed speed of up to 98 ft/min keeps printing fast, uniform and efficient. With a feed width of up to 63 in and the capacity to process materials from 0.04 to 3.1 in tall, the Sz 60 is ready for a wide variety of formats and porous substrates. It is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and similar materials, and is especially suited to packaging, signage and graphic customization. Five printheads, a 59.1 in print width and high-speed feeding make it a solution for businesses looking to expand production capacity, optimize operating time and respond efficiently to larger printing projects.
