DIGITAL PRINTER Sz72

PACKAGING SOLUTIONS

70.9 in Print width	6 Printheads
98 ft/min Feed speed	CMYK Inks

TECHNICAL OVERVIEW

The SHUREZ Sz 72 is a wide-format digital printer developed for industrial operations and continuous runs that require high capacity, speed and broad print coverage. Equipped with 6 simultaneously operating A3 Pagewide printheads, it offers a maximum print width of up to 70.9 in to process large graphics and maximize productivity in high-demand applications. Its CMYK ink configuration, compatible with dye or pigment ink, provides versatility for different graphic needs, while its feed speed of up to 98 ft/min supports continuous, efficient and stable processes. Designed for a wide variety of formats, the Sz 72 accepts materials from 0.04 to 3.1 in tall and has a feed system up to 63 in wide, making it easy to integrate into different production processes. It is compatible with kraft paper bags, corrugated board, cardboard boxes, wood boards, paper and other porous materials, suited to packaging, customization and industrial graphic printing. Six printheads, a 70.9 in maximum print width and high-speed feeding let it take on large-scale projects that demand productivity, flexibility and professional print quality.

TECHNICAL SPECIFICATIONS

Model	Sz 72 Digital printer.
Production level	Medium Designed for industrial operations and continuous runs.
Technology / printhead	A3 Pagewide Printhead
Number of printheads	6 printheads
Print width	70.9 in
Ink colors	CMYK dye ink / pigment ink.
Power	15 kW
Feed height	0.04–3.1 in
Feed speed	98 ft/min
Feed width	63 in
Print media	Kraft paper bags; corrugated board / cardboard boxes; wood boards; paper and other porous materials.
Warranty	1 year.
